

YOUNG space

Young Space is for artists and people who support artists. A former milliners in De Beauvoir - designed by John Pawson Architects - it acts as an incubator and salon; with recording studios, listening and meeting rooms & space for working privately and sharing publicly. Communal areas have been designed to enhance conversation & collaboration, while chef Mafruha Ahmed brings everyone together every day for lunch. Its current residents work across (but not limited to) fashion, music, visual art, furniture, food and publishing.

The Ground Floor is a flexible space that has hosted launches, projects for John Pawson Architects, NTS, HEAVEN by Marc Jacobs, Wales Bonner, Somesuch, RAVEN & more.

Outside

the courtyard garden has been used for Summer meetings, BBQs

"London's new creative mecca" - Dazed
"The building where it happens" - T
Magazine, New York Times
